

Decorative wax emulsion MURANO AQUA

Ready-made decorative wax emulsion

MURANO AQUA is a special wax emulsion for the treatment of decorative coatings indoors. It is a mixture of special synthetic waxes with the addition of auxiliary enriching substances.

Properties:

Water-repellent
Tinted with universal dyes
Does not contain organic solvents
Environmentally friendly
Repairable
Gives extra surface depth
Polished to a mirror effect
Resistant to washing

Composition:

Vehicle	wax emulsions
Pigment	—
Reducer	water

Types of substrates:

Decorative and protective coating for decorative plasters, used indoors.

Surface preparation:

It is applied on dry decorative plaster.

Performance of works:

It is applied with a stainless spatula on smooth textures, and with a brush on embossed textures. In 20-30 minutes after application, polish the surface with a special cloth or polishing machine.

Clean tools after use with "White Spirit".

Drying at a temperature of + 20 ° C and a relative humidity of 60%

Touch-dry	4-6 hours
Complete drying out	24 hours
Recommended temperature conditions	Not lower than +10°C

Componentes

water	9,00%
filler	-
wax emulsion	90,00%
conserving agent	0,3%
anti-foaming agent	-
auxiliary materials	0,7%

Technical features:

Coverage rate	26 m ² /bottle
Non-volatile matter content	near 40,00%
Solidity	1,0 kg/l
Medium	wax emulsion
PH	7,0±0,05

Recommendations:

Precautions	In case of contact with eyes, rinse immediately with plenty of water.
Storage	In a dry and clean place at a temperature from +5 °C to + 30°C, in a sealed package not less than 12 months from the date of manufacture
Packing	450 g

ATTENTION:

The firm is not responsible for poor-quality results (the occurrence of coating defects) in case of improper application on inappropriate places and surfaces, at the change of conditions of use, as well as the occurrence of a larger expense at using by not recommended methods
